Outline

## Project Name - Location Name

*Picture of Region*

## Project Total Cost, ISV Funding Sought, Self-funded

## Purpose

This 2-pager template should give a good overview, with necessary details, of the proposed project for which seed funding is sought from the IEEE Smart Village, ISVx. Under the section titles below, briefly provide the requested information, including areas highlighted in yellow. If needed, you may request assistance from your ISVx Point-of-Contact. The completed document should be kept to a maximum of 2 pages.

In this section, provide details of the following key items:

- Description of proposed project and how it aligns with ISVx three Pillars? (2-3 lines description)
- Community location and beneficiaries of the proposed project, including estimated number of people to be served in Phase 1 Pilot of the project (2-3 lines)
- Lead organization that will sign Project Agreement with ISVx to receive seed money and be responsible for project execution; include expertise and history of connection with the community. (3-4-lines)
- Highlight(s) of other related key item(s).

## Objective

Provide details on key goal(s) / milestone(s) of the proposed project and expected impact on the community served in terms of livelihood improvement.

## Background and Portfolio

### *Application Project site*

Include details on:

- History of the community served and its needs
- Relationship between the project team and the community
- Summary of discussion between the team and community on execution and impact of the project
- How and who from the community will be involved
- Other partners in the project execution, and their history of collaboration with the lead organization and the community.
- What community resources will be used, and provision of legal right to use them.

## Leveraging and sustainability/scalability plans

Discuss details on:

- The solution model or strategy adopted in the project (e.g. formation of partnerships, donor sources);
- Plans for assessment, measurement, and evaluation of risk/barriers and associated impact(s);
- Plans/opportunity to grow the project beyond Phase 1 Pilot via community, team and funding potential for scaling business plan to achieve long-term positive ROI;
- How the team and/or community will sustain the project beyond the execution period

## Team

Provide:

- Short bio (1-2 lines each) of lead persons and management in the project organization.
- Short bio (1-2 lines each) of lead person in the partner organization.
- Names of community counterparts and their roles in the community and the project.

## Perspective and Theory of Change

Make a case for the project, and provide details on:

- Expected Outputs (e.g.: kilowatt hours/day, number of homes connected), Expected Outcomes (e.g.: 100 women employed in beekeeping), and Expected Impact (e.g., Long-term benefit(s) to the beneficiaries).

## Timeline

In a descriptive, concise format, state the approximate:

- Project start and end date.
- Key milestones start and end dates

## At a glance (illustration)

<b>Project Locations</b>	Nearest village or city. State and country
<b>GPS Coordinates</b>	36° 14' 6.21" N, 112° 41' 18.97" W
<b>Requested Funding from ISV Donors</b>	\$100,000
<b>Payment Tranches</b>	Tranches per time
<b>Names of ISV and IEEE Members Involved</b>	STAFF MEMBERS AND VOLUNTEERS WHO ARE IEEE MEMBERS
<b>Technologies to be Deployed</b>	Fixed wireless Internet networks, solar energy sources
<b>Beneficiaries</b>	Who, How many, where
<b>Commissioning/Service Start Date</b>	Q2 2020
<b>Pilot Completion/ Demonstration</b>	Q4 2020 - preliminary network operations, Q1 2022 - fully sustainable network
<b>IEEE Review and Reporting Period</b>	Monthly & Quarterly
<b>Sustainability/ Scalability</b>	Names of Regions/Communities. Potential population served. Potential sources of funds for future phases
<b>Project Lead Contact</b>	Name, email, mobile/WhatsApp number, Postal address
